Re: Omega Chemical Superfund Site Settlement Offer; Response Due May 7, 2004

Dear Elliott Stern:

Previously, the United States Environmental Protection Agency ("U.S. EPA") sent the person or entity identified above, or a predecessor (collectively referred to in this letter as "your company or organization") a De Minimis Notice Letter discussing the potential liability of your company or organization for the ongoing remediation of the Omega Chemical Superfund Site (the "Omega Site"). Those parties who may be responsible for the waste at Superfund sites are referred to as "potentially responsible parties" or "PRPs." PRPs include individuals, businesses, governmental agencies, and other types of organizations. You may be a PRP if you are:

- 1) a current owner or operator of the Omega Site;
- 2) the former owner or operator of the Omega Site during the period of waste disposal;
- 3) a party that arranged for the treatment, disposal, or transportation of hazardous substances to the Omega Site (a "generator"); or
- 4) a party that selected the Omega Site as a place to dispose of hazardous substances and who transported these substances to the Omega Site (referred to as "transporters").

The parties receiving this letter are all believed to be "generators" of wastes disposed at the Omega Site, and therefore "potentially responsible parties" at the Omega Site.

This letter is intended to offer your company or organization the opportunity to resolve its liability for waste that was disposed of at the Omega Site. The U.S. EPA is making this offer to your company or organization on very favorable terms, due to the comparatively small quantity of waste (referred to as a "de minimis" quantity) it is responsible for having contributed to the Omega Site.
